

# Customized Risk Assessment Training

Mutual Boiler Re<sup>®</sup>

Member of the FM Global Group

## Tailored Training

**Our training sessions are completely customized and are suitable for underwriting and loss control staff of all experience levels.**

At Mutual Boiler Re, we offer our partner companies property loss prevention training programs using the latest research in the areas of construction, occupancy, protection and exposure (COPE). Utilizing FM Global's industry-leading loss prevention research and engineering, these programs help our partner companies understand the property exposures specific to the occupancies they write, how they affect their business and what solutions they can implement to mitigate them.

Developed collaboratively to meet specific needs, our instructors create classroom-style training sessions with a customized curriculum that covers multiple topics and classes of business. Our Customized Risk Assessment Training is available as in-person training or via webinar.

### In-Depth Overview of:

- Occupancy related exposures
- Loss drivers
- Field risk assessment skills
- Property loss prevention
- How loss control data drives better underwriting decisions

### Additional Benefits:

- Custom, co-branded literature
- Webinar development
- Access to FM Global resources
- Loss control forms review
- Loss drivers analysis
- Code interpretations
- Technical advice

### Additional Resources:

- FM Global Data Sheets
- Hazard Guides
- Online Training
- Risk Quality Guidelines
- Technical Reference Materials
