

**Commercial
equipment
is evolving.
So are its
challenges.**

Mutual Boiler Re®

Member of the FM Global Group

Contemporary protection for your policyholders.

The technologies that drive today's commercial equipment present many opportunities and almost as many challenges. Electronic components are more susceptible to loss and specialized repairs can be expensive. That's why Mutual Boiler Re offers Equipment Breakdown coverage designed to protect your policyholders from the kind of losses that could shut down a business.

Responding across the spectrum.

Our first priority is getting businesses back to normal as soon as possible. We help policyholders recover from many losses that can impact their bottom line, such as:

Manufacturing

When an electrical service panel arcs, an entire facility can shut down, causing damage to production equipment.

Offices

Loss of air conditioning for an extended period due to a covered equipment breakdown can lead to office closures and lost income.

Medical facilities

Patient information, surgical scheduling, electronic medical records and data can all be affected by physical damage to computer equipment.

From factory to corner store.

This is just some of the vital commercial and industrial equipment Mutual Boiler Re's Equipment Breakdown coverage is designed to protect:

- **AC systems**
- **Automatic sprinklers**
- **Computer equipment**
- **Cooking equipment**
- **Electric switches**
- **Electrical equipment**
- **Elevators**
- **Engine-driven generators**
- **Heater boilers**
- **Machine tools**
- **Pumps**
- **Refrigeration equipment**
- **Transformers**

Before loss happens.

We understand you want to help your policyholders prevent loss. So we offer many up-to-date resources to help them protect themselves:

- **Practical hazard guides**
- **Property loss prevention training, including access to FM Global's extensive library of resources**
- **Interactive, hands-on learning at the FM Global SimZone, a state-of-the-art educational facility**

Jurisdictional inspections above industry average.

Our on-time inspection rate is one of the best in the industry. More than that, Mutual Boiler Re offers exceptional transparency and a collaborative spirit. You'll find that we freely share inspection data with our partner companies. Our commissioned FM Global inspectors—a team 250 strong—report red flags during inspections and help your insured address violations.

What makes us different.

We are the only mutual reinsurance organization focused solely on equipment breakdown, which means our expertise runs exceptionally deep. But that's just part of the Mutual Boiler Re story.

**Commercial.
Homeowners.
Farmowners.**
